“Your team has demonstrated great flexibility and determination while dealing with project changes, constant priority adjustments and just the sheer amount of work we’ve asked you to undertake in a very short amount of time. You’ve been a key player in our success with our external data center clients.”

— OPERATIONS DIRECTOR, LEADING BANDWIDTH  
INFRASTRUCTURE PROVIDER

## Dedicated & Qualified Staff, Cutting-Edge Solutions

With decades of experience in Data Center infrastructure, and by embracing emerging technologies and collaborating with industry-leading manufacturers, we ensure each solution is done right every time. From initial design and engineering to construction, upgrades/retrofits, and ongoing maintenance, Network Connex is uniquely qualified to provide outside-to-inside or inside-to-outside services for crypto, cloud/hyperscale, multi-tenant, private, and edge data centers.
